BEECH AND OAK CLASS

This month the children in both Beech and Oak Class have been spending lots of time exploring in the garden. They have been making potions by collecting different natural resources and mixing this in water.

Our eldest children in Beech Class have also been supporting with the classroom reorganization and have been very excited to play some new games which we have found in our storage cupboard.

In Oak Class the children have been enjoying testing their abilities on the soft play resources, painting animals and making their own dens with boxes.

Why not give these activities a try at home in August

- * Freeze paint and water to make your very own colour blocks. Take these outside with your child and get busy mark making.
- * Fancy getting messy, why not make your very own rainbow spaghetti. Just mix cooked spaghetti with food colouring and let your little one explore, worried about the mess then keep this in a tray or the bath.
- Why not make some rainbow bubble foam—Mix with a whisk in a large bowl, two cups of water, a cup of baby wash and food colouring until foamy. Why not keep going until you have a tray of rainbow foam.
- Play indoor or outdoor bowling, using everyday household items. Get your child to number these items and make their own score chart.
